Sparco Milano Seat

Model : SPR 00944

Manufacturer : Sparco

One of the most advanced adjustable sport seats ever manufactured by Sparco. The back rest can be reclined to the millimeter and features the exclusive QTS (quick tilt system) technology for rapid return to the upright position. It also features a revolutionary contoured injection molded memory foam and Touring car inspired g-force absorbing side bolsters. Another noteworthy feature is the lumbar adjustment system that ensures proper ergonomics and ultimate comfort in all driving conditions. Features Lateral Support : Lateral side bolsters keep the driver in the optimum seating position at all times which is especially vital when cornering at high speeds. The side bolsters keep your body in an upright driving position helping to fight driver fatigue. Lumbar Support : An integrated internal lumbar adjustment system ensures proper ergonomics and ultimate comfort at all times. Micro Adjust : The micro-fine recline mechanism can be adjusted to the millimeter to guarantee the perfect seating position. Extensive research and development has been performed by Sparco Master Certified Safety Engineers to insure that the strength and integrity of the Micro Adjust Mechanism exceeds our strict homologation standards. Memory Foam : As body heat transfers into the high-density injection molded memory foam, the seat contours to your body [Click Here for a Sparco Seat Size Chart](#).

Price : \$989.00
