Sparco S-Light Seat

Model : SPR 00893

Manufacturer : Sparco

For many years Sparco seats have been the benchmark in racing seat quality, comfort and technology. The S-Light continues that long standing tradition. The S-Light has a carbon fiber honeycomb composite shell that can withstand stresses of over 2200 pounds and was one of the first seats developed in our new state-of-the-art production facility. The S-Light incorporates many other special features such as a fire retardant cover with anti-slip fabric in the shoulder and seat areas, split adjustable thigh cushions and special shock absorbing material in the head and side areas. The S-Light Circuit includes all of the same features as the S-Light and incorporates the same head restraint found on our Circuit seat. [Click Here for a Sparco Seat Size Chart.](#)

Price : \$2,900.00
