Cosworth Subaru EJ25 STI Forged Piston Set

Model : COS 2000

Manufacturer : Cosworth

The piston is one of the most important components within an engine. It can be subjected to directional change up to 285 times every second and must withstand acceleration forces up to 8500g. Cosworth high performance forged pistons are designed and engineered to withstand this type of punishment and still perform. All Cosworth forged pistons are manufactured using the same methods as our Formula One pistons and feature friction reducing skirt coating, ultra strong pins, polished tops and patented anti-detonation bands. Additionally, each application uses a unique forging to minimize weight and ensure the strongest possible piston design. Proprietary Cosworth alloy Popular sizes Unique forging Skirt coating Polished top Anti-detonation bands High strength pins.

When Placing the order please Specify.

Compression Ratio: 9.2:1 OR 8.2:1

Bore Size: 99.5mm, 99.75MM, and 100MM

Price : ~~\$799.00~~

Sale price : \$759.05
