

> Invidia WRX STI Exhaust Manifold Header

Invidia WRX STI Exhaust Manifold Header

Model : inv HS02SW1HDP

Manufacturer : Invidia

The Invidia Header is a direct replacement for your WRX. Replacing your stock header with a aftermarket one will increase HP and make turbo spool-up time decrease. The Invidia Header has included the uppipe piping with the header piping. There is no more need to purchase a aftermarket uppipe. This also decreases the chance of there being a leak present. Construction of the header includes fully polished SUS 304 Stainless Steel. Invidia exclusive TIG weld with 3 layer tubing design. CNC Machine flanges to maximize engine horsepower and torque. This header uses a integrated uppipe with flawless welds and mandrel bends. Using OEM sensors and brackets, this header will provide you with a good low end power gain and sound difference. The Invidia Header has included the uppipe piping within the header, so there is no need for a uppipe! New Gaskets recommended for purchase with this header.
