PLX Devices AFR Sensor Module W/ LED Gauge

Model : PLX SM-AFR + DM-5 AFR

Manufacturer : PLX Devices

SM-AFR utilizes the latest digital PID and DSP technologies to maximize o2 sensor reaction time and accuracy without compromising overshoot, and slow settling response time. This technology is coupled with advanced self sensor calibration circuitry and sensor soft start to both prolong the life of your oxygen sensor as well as eliminating any user intervention for manual sensor calibration. PLX widebands may be used and installed in your vehicle permanently. The Digital DM-5 gauge is powered by the A/F Sensor Module and provides extreme digital accuracy.

NO SENSOR CALIBRATION IS REQUIRED! SIMPLY PLUG AND PLAY.

THIS COMBO INCLUDES THE A/F RATIO SENSOR, SENSOR MODULE, AND WHITE/BLACK O2 GAUGE

Price : ~~\$269.00~~

Sale price : \$263.62

Options available for PLX Devices AFR Sensor Module W/ LED Gauge :

Color

Black, White.
