Motive Products Hydraulic Brake & Clutch Pressure Bleeder

Model : MOTIVE 0107

Manufacturer : Motive Products

Pressure bleeding provides the best results, even on the most difficult hydraulic systems (including most cars with ABS brakes) The POWER BLEEDER's™ heavy duty tank holds up to 2 quarts of fluid, enough to fully flush and clean the hydraulic system without the need to refill the tank. Our precision pressure gauge prevents over pressurization and our custom machined adapter securely attaches to the fluid reservoir for the safest and most effective operation. The hand-operated pump is built in-no other pressure source (air compressor, spare tire) is needed. Fast, easy and reliable one-person operation. Works on hydraulic clutch systems, too.

INCLUDED CAP DIRECTLY FITS SUBARUS AND EVOLUTIONS AS WELL AS MOST IMPORT VEHICLE WILL ONLY WORK ON CLUTCH LINE IF BRAKE AND CLUTCH SHARE THE SAME FLUID RESERVOIR

Price : \$64.95-

Sale price : \$58.46
