## SPC Subaru Impreza Camber Bolts

Model : SPC 81260

Manufacturer : SPC

The new EZ Cam(tm) XR is designed for non-slotted struts. It allows both positive and negative camber changes up to approximately 1.75 degrees (depending on vehicle) by replacing the upper O.E. strut/spindle bolt. This easy to use adjuster provides built-in adjustment over the life of a vehicle just by rotating the head of the bolt. Each kit contains two cam bolt assemblies, enough for both sides of the vehicle. This kit will not fit the STI rear suspension.

**Price : \$35.99**
