

Tein 93-01 GC8 Subaru Impreza Rear Strut Tower Brace

Model : Tein PBS13-11100

Manufacturer : Tein

TEIN PERFORMANCE BAR is developed with high quality reinforcement, using selected materials under world-class quality control. If the vehicle's chassis is deformed or twisted when driving, even an expensive suspension kit will not be able to perform up to its full ability. TEIN Performance Bar, with ultra light-weight and highly rigid aluminum shafts, is sure to increase the rigidity of the vehicle and to bring out the suspension's full potential. 1. The concepts of PERFORMANCE BAR 1) Ultra light-weight & highly rigid aluminum shafts: With the use of selected Aluminum material and TEIN's original oval shape design, which is exclusive to each vehicle model, TEIN Performance Bar raises the rigidity of the vehicle with the style. 2) Reasonable Price: Even with the Aluminum cutout plate and high-rigid oval shape bar, TEIN Performance Bar only costs as much as the competitors' pipe-shape bars. The very rigid vehicle body can be yours at an easy-to-afford price. 3) EDFC compatible: TEIN Performance Bar is the only one on the market to be compatible with EDFC motor installation.
