

> APR STi/WRX FRP Rear Diffuser

APR STi/WRX FRP Rear Diffuser

Model : APR FAB-820519

Manufacturer : APR Performance

The purpose of a diffuser is to divert the air flow so that it can decrease turbulent air, making the flow as smooth as possible, thus creating downforce. The downforce is created by the diffuser creating a low pressure non-turbulent area under the car. Not only will this aid in the aerodynamics of the car, but it also looks very nice aggressive look to it. Minimum shipping costs \$100.00. Please contact us for more information.

Price : ~~\$520.00~~
