Blouch WRX/STI TD05h-16G

Model : BLC TD05H-16G

Manufacturer : Blouch Turbo

Perfect for your 350 HP WRX project, the TD05H-16G features the efficiency of the Mitsubishi 16G compressor wheel combined with the lightning quick response of the TD05H turbine in an internally gated 7cm² nozzle area turbine housing. Like all of our WRX/STI bolt on upgrades, the TD05H-16G is shipped complete with coolant pipes and turbo oil drain tube installed to simplify installation. The turbo is equipped with a standard wastegate actuator calibrated at 9 PSI and optional upgrade actuators are available in incremental pressures from 10 PSI to 19 PSI. The WRX TD05H-16G custom performance turbocharger is a direct bolt on upgrade and requires no modification to intake, exhaust, oil and coolant connections for installation.

Price : \$799.99

Options available for Blouch WRX/STI TD05h-16G :

Turbine Housing
