APS SS42 2.0L Turbo

Model : APS 990-060-460

Manufacturer : APS

Finally, a range of affordable high performance direct replacement turbochargers that have been specifically designed for the Subaru WRX, and Forester by the Subaru performance specialists - APS.

APS has designed and produced what is arguably the ultimate in affordable high performance turbochargers for the Subaru performance enthusiast.

Unencumbered by the limitations of current off the shelf Subaru turbochargers, APS has totally engineered a series of turbochargers from the ground up to match the exact requirements of high performance Subaru 2.0L and 2.5L engines.

High strength compressor wheel design and high nickel content turbine housing means complete reliability to high pressure ratios - And since nobody likes to wait, the APS SS Series turbochargers are designed for fast spool-up to deliver crisp turbocharger response and mountains of torque.

Best of all, SS turbochargers are complete bolt on. Simple hook up of all factory connections and full compatibility with high performance stock position inlet/exhaust means that the installation of your APS SS Series turbocharger is truly no hassle.

If you want ballistic power and outstanding turbocharger reliability in a truly bolt on high performance and affordable unit, then the APS SS Series turbocharger is the perfect choice.

APS SS42 Sleeve Bearing Turbocharger, with a 42lb/min wheel.

First genuine TD06-20G Housing that was specifically made for the Subaru application.
