Exedy Impreza Single Plate Organic Clutch(2.5L Only)

Model : EXD 15801

Manufacturer : Exedy

EXEDY Racing clutches with organic friction materials use only premium friction materials that are resistant to slippage and burst. Increased clamp loads give the necessary capacity to handle modified engines. The driveability will be like a stock clutch. Pedal efforts will be higher because of the higher clamp loads. All of these clutch discs have high capacity spring center dampers to reduce the drive train shock and impact.
